

**In the Claims:**

The claims are as follows:

1. (Original) A composition, comprising: aspirin, magnesium, and nattokinase, and either niacin or nitroglycerine, said composition having a structural form that is suitable for being introduced into a body of a person.
2. (Original) The composition of claim 1, wherein the composition is adapted to be introduced into the body of the person for mitigating adverse effects of an imminent or actually-occurring pernicious thrombotic event in the person.
3. (Original) The composition of claim 2, wherein the pernicious thrombotic event in the person is a heart attack or stroke in the person.
4. (Original) The composition of claim 1, wherein the aspirin, magnesium, nattokinase, and niacin or nitroglycerine each have a therapeutically effective amount for mitigating adverse effects of an imminent or actually-occurring pernicious thrombotic event in the person.
5. (Original) The composition of claim 4, wherein the pernicious thrombotic event in the person is a heart attack or stroke in the person.
6. (Original) The composition of claim 1, wherein the structural form is a chewable form, and

2

wherein the chewable form is adapted to being introduced into the mouth of the person.

7. (Original) The composition of claim 6, wherein the chewable form comprises a wafer or a chewable tablet.

8. (Original) The composition of claim 6, wherein the structural form is a dissolvable form, and wherein the dissolvable form is adapted to being introduced into the mouth of the person.

9. (Original) The composition of claim 1, wherein the structural form is a liquid form.

10. (Original) The composition of claim 1, wherein the structural form is a spray form, and wherein the spray form is adapted to being introduced into the nasal cavity of the person.

11. (Original) The composition of claim 1, wherein the structural form is a suppository form, and wherein the suppository form is adapted to being introduced into the anal cavity of the person.

12. (Original) The composition of claim 1, wherein the composition comprises niacin.

13. (Original) The composition of claim 12, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, and wherein the niacin has an amount in a range of 500 to 3000 mg.

10/625,305

3

14. (Original) The composition of claim 12, further comprising L-carnitine.

15. (Original) The composition of claim 14, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the niacin has an amount in a range of 500 to 3000 mg, and wherein the L-carnitine has an amount in a range of 2000 to 9000 mg.

16. (Original) The composition of claim 14, further comprising alpha lipoic acid.

17. (Original) The composition of claim 16, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the niacin has an amount in a range of 500 to 3000 mg, wherein the L-carnitine has an amount in a range of 2000 to 9000 mg, and wherein the alpha lipoic acid has an amount in a range of 200 to 10000 mg.

18. (Original) The composition of claim 16, further comprising L-arginine.

19. (Original) The composition of claim 18, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the niacin has an amount in a range of 500 to 3000 mg, wherein the L-carnitine has an amount in a range of 2000 to 9000 mg,

wherein the alpha lipoic acid has an amount in a range of 200 to 10000 mg, and wherein the L-arginine has an amount in a range of 2000 to 12000 mg.

20. (Original) The composition of claim 18, further comprising coenzyme Q10.

21. (Original) The composition of claim 20, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the niacin has an amount in a range of 500 to 3000 mg, wherein the L-carnitine has an amount in a range of 2000 to 9000 mg, wherein the alpha lipoic acid has an amount in a range of 200 to 10000 mg, wherein the L-arginine has an amount in a range of 2000 to 12000 mg, and wherein the coenzyme Q10 has an amount in a range of 300 to 6000 mg.

22. (Original) The composition of claim 1, wherein the composition comprises nitroglycerine.

23. (Original) The composition of claim 22, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, and wherein the nitroglycerine has an amount in a range of 0.4 to 2.5 mg.

24. (Original) The composition of claim 22, further comprising L-carnitine.

25. (Original) The composition of claim 24, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the nitroglycerine has an amount in a range of 0.4 to 2.5 mg, and wherein the L-carnitine has an amount in a range of 2000 to 9000 mg.

26. (Original) The composition of claim 24, further comprising alpha lipoic acid.

27. (Original) The composition of claim 26, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the nitroglycerine has an amount in a range of 0.4 to 2.5 mg, wherein the L-carnitine has an amount in a range of 2000 to 9000 mg, and wherein the alpha lipoic acid has an amount in a range of 200 to 10000 mg.

28. (Original) The composition of claim 26, further comprising L-arginine.

29. (Original) The composition of claim 28, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the nitroglycerine has an amount in a range of 0.4 to 2.5 mg, wherein the L-carnitine has an amount in a range of 2000 to 9000 mg, wherein the alpha lipoic acid has an amount in a range of 200 to 10000 mg, and wherein the L-arginine has an amount in a range of 2000 to 12000 mg.

10/625,305

6

30. (Original) The composition of claim 28, further comprising coenzyme Q10.

31. (Original) The composition of claim 30, wherein the aspirin has an amount in a range of 650 to 975 mg, wherein the magnesium has an amount in a range of 300 to 3000 mg, wherein the nattokinase has an amount in a range of 150 to 3000 mg, wherein the nitroglycerine has an amount in a range of 0.4 to 2.5 mg, wherein the L-carnitine has an amount in a range of 2000 to 9000 mg, wherein the alpha lipoic acid has an amount in a range of 200 to 10000 mg, and wherein the L-arginine has an amount in a range of 2000 to 12000 mg, and wherein the coenzyme Q10 has an amount in a range of 300 to 6000 mg.
